Resolutions

Resolution: 1. Minutes of Policy TC meeting of 5th November accepted.

Resolution: 2. The Version 3 Working Draft of the Policy Framework specification is adopted as the 1st Committee Draft.

Resolution: 3. Issue #35 is moved to the Open state.

Resolution: 4. Issue #9 is closed with no action

Resolution: 5. Issue #12 is closed with no action.

Resolution: 6. Issue #14 is closed with no action.

Actions

20071112-1: Ashok & Dave to raise issue #14 with the Bindings TC

20071112-2: Ashok to prepare a proposal for Issue 15 - by Dec 3

Agenda

1. Roll call
2. Appointment of minute taker – Mike Edwards

3. Agenda bashing

4. Vote to accept minutes from previous meeting

<http://lists.oasis-open.org/archives/sca-policy/200711/msg00008.html>

5. Promote Framework draft to CD status?

<http://www.oasis-open.org/committees/download.php/25995/sca-policy-1.1-spec-wd-03.doc>

6. NEW ISSUES

a. Conformance targets <http://www.osoa.org/jira/browse/POLICY-35>

7. ISSUES

a. WS-I compliance versus QoS policy

<http://lists.oasis-open.org/archives/sca-policy/200710/msg00042.html>

<http://www.osoa.org/jira/browse/POLICY-9>

<http://lists.oasis-open.org/archives/sca-policy/200711/msg00006.html>

b. Annotations for policy intents

<http://lists.oasis-open.org/archives/sca-policy/200710/msg00045.html>

<http://www.osoa.org/jira/browse/POLICY-12>

c. Binding hierarchies need to be considered in policyReference matching

<http://lists.oasis-open.org/archives/sca-policy/200710/msg00047.html>

<http://www.osoa.org/jira/browse/POLICY-14>

d. External mechanism for attaching intents or policySets

<http://lists.oasis-open.org/archives/sca-policy/200710/msg00048.html>

<http://www.osoa.org/jira/browse/POLICY-15>

8. AOB

9. Any additions to the roll?

(Item 3) Agenda Bashing

Agenda accepted as-is.

(Item 4) Minutes from previous meeting of Policy TC

Michael Rowley: Moves to accept the minutes for 5th November meeting.

Eric Wells: seconds

Agreed unanimously

Resolution: 1. Minutes of Policy TC meeting of 5th November accepted.

(Item 5) Promote Policy Framework to Committee Draft status

Question about the procedure to follow – it can be done through a simple motion.

Michael Rowley: Do the editors think the draft is ready?

Ashok Malhotra: Yes, it is in a very reasonable state.

Michael Rowley moves that the Version 3 Working Draft of the Policy Framework specification is adopted at the 1st Committee Draft.

Seconded by Bob Freund.

Accepted unanimously

Resolution: 2. The Version 3 Working Draft of the Policy Framework specification is adopted as the 1st Committee Draft.

(Item 6) New Issues

Issue #35 Conformance Targets

<http://www.osoa.org/jira/browse/POLICY-35>

Martin Chapman moves to open this issue. Michael Rowley seconds.

Accepted unanimously.

Resolution: 3. Issue #35 is moved to the Open state.

(Item 7) Open Issues

Issue #9: WS-I Compliance versus QoS Policy

<http://www.osoa.org/jira/browse/POLICY-9>

Discussion of what this issue really means.

Michael Rowley asks if there are any existing WS-Policy assertions that relate to WS-I compliance

- it appears that none have been standardized

Regular Basic Profile puts constraints on the WSDL and on the form of messages.

Anish: Suggestion - WS-I may (sometime in the future) define WS-Policy assertions for their profiles - in which case this TC does not have to do anything

Michael R - what would you expect to find in the assertions for WS-I?

It can be done for WS-I BSP - in that there are a set of security assertions which are already defined elsewhere

Ashok: I think that all this is telling us that there is nothing useful that we can define in this area at the moment and so we should close this issue

Dave B: there are other profiles other than WS-I Basic Profile, for which this might make sense - could morph this issue to address those profiles

Tom Rutt: Might be best to close what is a vague issue

Tom Rutt moves to close this issue with no action

Michael Rowley seconds

Accepted unanimously

Resolution: 4. Issue #9 is closed with no action

Issue #12: Annotations for policy intents

Ashok: Idea is to have language annotations for policy intents - for more than just one language (Java today)

Michael R - this should be up to the various language groups (eg BPEL)

Mike Edwards moves to close this issue with no action

Michael Rowley seconds

Accepted unanimously

Resolution: 5. Issue #12 is closed with no action.

Issue #14: Binding hierarchies need to be considered in policyReference matching

Michael Rowley - where there is the need to match up bindings at two ends of a wire, simple binding equality seems too restrictive

- under what circumstances can this matching rules be done

- this could be done in the Policy group or possibly in Assembly

Ashok - useful if we can get a proposal here.

Michael R - sounds more like an Assembly issue

<discussion of where this should be handled>

Mike Edwards moves to close this issue and for an action to be taken to move it to the Bindings TC

Michael Rowley seconds

Accepted unanimously

Resolution: 6. Issue #14 is closed with no action.

20071112-1: Ashok & Dave to raise issue #14 with the Bindings TC

Issue #15: External mechanism for attaching intents or policySets

Ashok - some separate file with a pointer to some SCDL element and a pointer to some PolicySet (or something like this)

eg ability to add Policy to some existing SCDL without changing it

Michael R: useful to help with separation of roles – assembler vs deployer

Michael R: the existence of some form of (XPath) pointers in the separate file(s) can get complex fast

Ashok: WS-Policy has attachment mechanisms

Status is that we need a proposal for this.

20071112-2: Ashok to prepare a proposal for Issue 15 - by Dec 3

AOB

None

Next meeting 19th November 2007

Close of Business
