Issue15_Alternative_Proposal_03.doc

Ashok discusses an aspect of the proposal relating to @appliesTo.

There is a need to improve the current spec wording relating to @appliesTo (nothing to do with current proposal!) - relating to the removal of the "pull" mechanism (line 145 etc) - how would this apply to "general corporate policies"?

Dave B: I look at this a bit differently. Intents are still matched to PolicySets, since the XPath expression in @attachTo can be set to include one or more intents as part of its selection of Policies.

Ashok: You have to write the application XPath as well as the PolicySet

Sanjay: Does the current proposal remove the @provides attribute of policySets?
To answer Sanjay: No, @provides is still there

Sanjay: Then wouldn't we have two mechanisms for push now - a> via policySet@provides and b> via ExternalAttachment@appliesTo

Dave B: You are making a good observation in that @provides could be optional - it isn't strictly required for the application of the policySet to an artifact

Sanjay: if we get rid of the pull mechanism we should revisit all parts of the specification that relate to it and clean them up

Ashok: At the end of the proposal there are some functions - the functions don't quite work right, when we're working with WSDL interfaces. We need examples which show a particular binding with a particular operation or message in the WSDL file
(Mike E and Ashok can talk offline about this)

Mike E asks if there is agreement on the general direction in the proposal since the next step is preparation of an updated spec draft - a load of work

Sanjay: I like the proposal overall
SAP would prefer to attach policies in this way
Bob: I'm generally in favour

Issue 55 Clarify the handling of intents

<http://www.osoa.org/jira/browse/POLICY-55>
<http://lists.oasis-open.org/archives/sca-policy/200807/msg00015.html>

There is a proposal: sca-policy-1.1-spec-wd-06_Issue52_Proposal.doc
This also resolves Issue 52 - Policy algorithm gets required intents from what interfaces definitions/declarations?

Starts with Section 4.2.1 - line 781
Mike E explains how the proposal is structured
We will look at this proposal in depth next week.
