Latest Document Update:

<http://lists.oasis-open.org/archives/sca-policy/200907/msg00026.html>

Document: SCA-Policy-1.1-Test-Assertions-WD-01_dab11July2009_mje.doc

Later discussion of this document:

<http://lists.oasis-open.org/archives/sca-policy/200907/msg00028.html>

Starting with POL-TA-90022

POL-TA-90022

POL-TA-90023 & POL-TA-90024 - both removed as they are duplicates of earlier TAs (eg POL-TA-90019)

POL-TA-90025

POL-TA-90026

Prerequisite has a small typo "noManageTransaction"

POL-TA-90027

POL-TA-90028

Ashok is concerned that we cannot mark operations any longer

Mike: It is possible to annotate interface operations with @oneWay

POL-TA-90029

POL-TA-90030

Ashok: This is positive way of stating the predicate, not the negative form

POL-TA-90031

POL-TA-90032 & POL-TA-90033 have been removed

- they repeat material in POL-TA-90030 & POL-TA-90031

POL-TA-10001

POL-TA-100002

POL-TA-100003

Ashok: these two deal with the SOAP qualifiers - there are open issues for these at the moment

POL-TA-100004

POL-TA-100005

POL-TA-100006

POL-TA-110001

Ashok: This marks the end of the TAs

Ashok: What do people think about this version of the document? What do we want to do with it?

Ashok: I'd like to see a cleaned up copy with all of the work items included

Mike: I think it is premature to go to a CD - we should work on the actual testcases first since these will have an impact on the TAs.

EricW: +1 Mike - We should at least start on the Test Cases before going to CD or PR on the Test Assertions

Ashok: OK, I'll take on preparing a clean version of the document for a vote next week.

ACTION 20090803-01 Ashok to prepare a clean version of the TestAssertions document.

(Item 11) Additional Issue Discussion

ISSUE 97: Suggestion to address suspected default/unqualified intent ambiguity

<http://www.osoa.org/jira/browse/POLICY-97>

Latest Discussion: <http://lists.oasis-open.org/archives/sca-policy/200907/msg00051.html>

Rich summarizes the discussions that have taken place

- the bottom line:

- suggest extra wording in (say) Appendix B to help explain this stuff
- may want a test for users defining new intents or extending intents
- I will leave it to the committee to decide

Ashok: Do you recommend that we add wording to the spec to clarify some of these questions

Rich: I think some wording should be added to the beginning of Appendix B

- the factual side of the material should be based on the test in the email, but the text is not suitable as it is

ACTION 20090803-02 Ashok & Rich to prepare wording to resolve Issue 97 (clarification wording)

ISSUE 88: Policy content in the Assembly spec:

<http://lists.oasis-open.org/archives/sca-policy/200905/msg00003.html>

Ashok discusses the content of the email, which suggest that material from the Assembly spec should be dealt with by the Policy spec

Ashok: We should add material like this to the Policy spec

Mike: Are you going to raise an issue for this?

Ashok: I think we may already have an issue for this

Mike: Is this Issue 88?

<http://www.osoa.org/jira/browse/POLICY-88>

Ashok: Yes, this is Issue 88

ACTION 20090803-03: Ashok to create a proposal for Issue 88

ISSUE 73: XPath samples are invalid by syntax

<http://www.osoa.org/jira/browse/POLICY-73>

Proposal: <http://lists.oasis-open.org/archives/sca-policy/200903/msg00039.html>

Proposal document: sca-policy-1.1-spec-cd02-issue73-v2.doc

Changes are in Section 4.4.1 (lines ~935)

- 5 examples in that section

Mike moves to resolve Issue 73 using the proposal in the email
Eric seconds
Motion passes unanimously

Resolution: Issue 73 is resolved

ISSUE 76: Conformance statement 30011 is unclear

<http://www.osoa.org/jira/browse/POLICY-76>

Proposal: <http://lists.oasis-open.org/archives/sca-policy/200904/msg00015.html>

Proposal document: sca-policy-1.1-spec-cd02-rev1-issue76-v1.doc

The change is to POL30011 in section 3.4.2
