Question from Liaison TC

- asking for status for all SCA TCs
- includes availability of conforming runtime implementations

Ashok: Requirement is for "at least 2 implementations"

- in order to go forward to become a standard

Mike E: I believe that Apache Tuscan + Fabric3 are implementations

Ashok: Oracle intends to produce an implementation of SCA Policy

Ashok: We would like to ask all companies that are members of this TC to indicate if they are intending to implement the SCA Policy specification

Dave: Can you please forward Sanjay's email to the Policy list, Ashok?

(Item 6) Action Items

a. 20100419-01: (Ashok) status=done Remove TA 40019 & TA 40034

b. 20100419-02: (Dave) status=done Raise an issue to removed POL40028 from the spec all complete...

(Item 7) CD03 and Public Review 02

TC Admin published the Public Review earlier today

- they have the length of the Spec review wrong (60 days), when 15 days was clearly asked for in the original email to them

ACTION 20100517-01: Dave to raise the length question with TC Admin

(Item8) New Issues

Issue-118: POL-TA-40012 should be re-written in a positive form

<http://www.osoa.org/jira/browse/POLICY-118>

Dave outlines the issue

TA is written in a negative, talking about errors - but there is nothing about this in the original normative statement. Thus the TA should be rewritten in a positive form. (example in the proposal)

Dave moves to open Issue 118

Mike E seconds

Motion passes unanimously.

Resolution: Issue 118 is opened

Dave discusses the proposal

Proposal is in the JIRA

Dave moves to resolve Issue 118 with the proposal in JIRA

Ashok: This will be fixed after the public review, right Dave?

Dave: Yes
