Title: Liaison to OASIS on SAML, XCAML and future collaboration

LIAISON STATEMENT

For action to:

For comment to: OASIS

For information to:

Approval: Agreed to at ITU-T Study Group 17 meeting

Deadline:

Contact: Abbie Barbir
Rapporteur of Question 10/17

Email: abarbir@live.ca

ITU-T Study Group 17 in Question 7/17 and Question 10/17 reviewed a number of documents concerning SAML 2.0, XACML 2.0 and XCAML 3.0.

The meeting decided to produce an Amendment to Recommendation X.1141 to incorporate all SAML related material. The meeting also decided to produce an Amendment to X.1142 to incorporate the Errata of XCAML 2.0.

We decided to draft a new Recommendation (X.xacml3) to align with the OASIS XACML 3.0 standard as soon as it becomes.

We do look forward to continued and future collaboration. In this regard the ITU-T SG 17 management would like to have teleconference meetings with OASIS staff to discuss how we can improve future collaboration and to consider synchronization of approval procedures.

We do thank OASIS for its excellent efforts in maintaining an effective liaison relationship with the ITU-T SG 17.
