

Call for Papers -- Industry Experience Track

Tenth ACM Conference on Computer and Communications Security (CCS)

October 28-29, 2003, Wyndham City Center, Washington, DC

Sponsored by ACM SIGSAC

www.acm.org/sigsac/ccs

This year, we introduce a new track aimed at promoting discussion on industry efforts to implement security measures. The main topics of interest range from industry experiences delivering security services, applications, and systems to industry needs for new security technology. Also of interest is explanation of the decisions that underlie technologies being actively employed in industry. Disciplines of interest include those typical for CCS including:

Access control	Authentication	Accounting and Audit	Database and system security
Security for mobile code	Applied Cryptography	Data/system integrity	Smart cards and secure PDAs
Cryptographic protocols	E-business/e-commerce	Intrusion detection	Inference/controlled disclosure
Key management	Privacy and anonymity	Security management	Intellectual property protection
Information warfare	Secure networking	Security verification	Commercial and industry security

For this track, we solicit panel and presentation proposals. The accepted proposals that comprise the track's program will be made accessible prior to the conference. The track may also include some invited talk speakers.

Presentation Proposals: A presentation proposal should be a position paper, no more than three (3) pages in length that describes the goals of the work and progress to date sufficiently to motivate the corresponding presentation.

Panel Proposals: A panel proposal should be no longer than three (3) pages in length, should include possible panelists, and should include an indication of which panelists have confirmed participation.

Paper submissions will be electronic only and web-based. **Submission instructions will be posted in a timely manner at the web site www.acm.org/sigsac/ccs.** Only pdf or postscript files will be accepted. No Microsoft Word documents please. The Industry Experience Track Program Committee (see below) will review and select proposals for presentation.

General Chair	Sushil Jajodia	Program Chair (Industry Experience)	Trent Jaeger
Proceedings Chair	Peng Liu	Publicity Chair	Gail-Joon Ahn
Treasurer	Charles Youman	Tutorials Chair	Yvo Desmedt

Important Dates	Papers due	June 27, 2003
	Decisions due	August 22, 2003
	Revised proposals due	October 3, 2003

Please visit www.acm.org/sigsac/ccs for additional and up-to-date information, including information on workshops held in conjunction with CCS.

Steering Committee **R. Sandhu (Chair), R. Ganesan, S. Jajodia, P. Samarati**

Industry Experience Program Committee

Carlisle Adams, Entrust	Benny Pinkas, HP Labs
Selim Aissi, Intel Research	Makan Pourzandi, Ericsson
Crispin Cowan, Wirex	Ravi Sandhu, NSD Security
David Ferraiolo, NIST	Leendert van Doorn, IBM Research
Brian LaMacchia, Microsoft	Michael Waidner, IBM Research
Patrick McDaniel, AT&T Labs
