

PROTECT & PREVENT—secure your business

8-9 September
European Commission HQ, Brussels

REGISTER TODAY!

MARK YOUR CALENDAR

Join CIOs, CISOs and cyber threat experts from industry, government and CSIRTs worldwide to learn new strategies and practices to more effectively protect your business. Hosted by the European Commission and the OASIS open standards consortium, Borderless Cyber Europe will provide you access to communities of C-level professionals and IT security practitioners as they share the latest cyber threat intelligence.

Conference Content

Interactive sessions to show best practices, successful case studies and insight into how threats can be managed and resolved.

Learn more

Who Should Attend

Executives responsible for developing, influencing and managing cyber threat information and risk management in the public and private sectors.

Learn more

Guest Speakers

Industry experts who understand the business obstacles inherent in the cyber security domain, who deal with critical cyber security issues on a daily basis.
