

## **DocBook: *The Source for Documentation***

- An XML vocabulary particularly well suited to computer hardware and software documentation.
- Supported “out of the box” by an ever-growing number of commercial and open source tools.
- Actively maintained for more than a decade.

# The DocBook Technical Committee

- Produced the first OASIS Standard: DocBook V4.1 in January 2001.
- Expects to take DocBook V4.5 to OASIS Standard this year.
- Is actively developing DocBook V5.0, a major rewrite taking advantage of the power of RELAX NG.
