

The SIIT conferences aim at bringing together researchers and practitioners to foster the exchange of insights and views on all issues surrounding ICT standards and standardization. Conferences are held every two years, bringing together standardization researchers from different disciplines, IT-practitioners, policy makers, standards developers and users (administrations, companies, etc.) - that is, those who are interested in exchanging insights on standards and standardization, and appreciate the different angles and types of knowledge brought together.

REGISTRATION FEES

*Registration fee for IEEE Members

- Early Bird Registration (until 22nd August): 200 € (160 €*)
