2:10	***Featured Presentation: Call to Action on Emergency Alerting -- to increase the use of the Common Alerting Protocol (CAP)*** Emergencies and disasters lead to tragic loss of lives and livelihoods. Too much of this loss is due to ineffective public warning: emergency alerts that are not timely enough, not understandable enough, or fail to reach everyone at risk. *alert-hub.org* is working with international organizations advocating for a Call to Action on Emergency Alerting to implement CAP. The Call to Action was developed in partnership with the International Federation of Red Cross and Red Crescent Societies (IFRC), the International Telecommunications Union (ITU) and World Meteorological Organization (WMO). **www.alert-hub.org**	Presentation and Discussion	***Eliot Christian*** ***CEO*** ***alert-hub.org***
