BNML Schema Public Licence

Version 1.0

Elkera Pty Limited is the original developer of the XML schema and accompanying documents described as the *BNML Schema*. The BNML Schema is designed to be adapted and extended for use in a wide variety of applications. This document sets out the terms on which any person may copy, use, reproduce, create derivative works from and sublicence, the BNML Schema. Use of the BNML Schema other than as authorised under this licence or under applicable law is prohibited.

1   Interpretation

In this licence:

BNML Standard Schema means the XML Schema called *BNML Standard* and all explanatory or reference documentation provided, or associated, with that Schema, described in the notice required by Appendix A.

Contributor means an individual or entity who creates or contributes to the creation of a Derivative work.

Derivative work means a work that reproduces a substantial part of the Schema, or that is an adaptation of the Schema, including a version of the Schema, whether or not in the language, code or notation in which the Schema was originally expressed.

Elkera means Elkera Pty Limited, Australian Company Number (ACN) 092 447 428.

Larger work means a work which combines the Schema or portions of it with computer software or documentation not covered by this Licence.

Licence means this licence document or a future version issued under clause 5.

Licensor means Elkera and each Contributor.

Rights mean the rights:

(a)   to reproduce the Schema;

(b)   to create and reproduce Derivative works;

(c)   to publish the Schema;

(d)   to communicate the Schema to the public; and

(e)   to sublicence the Schema.

Schema means the BNML Standard Schema and any Derivative works of a Contributor.

You or *Your* means an individual or entity exercising rights under this Licence.

2   Licence grant

2.1   Grant by Elkera

Subject to the terms and conditions of this Licence, Elkera hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for the duration of the applicable copyright) licence to exercise the Rights.

2.2   Grant by each Contributor

Subject to the terms and conditions of this Licence, each Contributor hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for the duration of the applicable copyright) licence to exercise the Rights.

2.3   Your acceptance of this licence

Your rights to copy and use the Schema are derived solely from this Licence or from rights granted by law. By using or reproducing the Schema or by creating a Derivative work you accept and agree to be bound by all the terms and conditions of this Licence.

2.4   Trade marks

This License does not grant any rights to use the trade marks or trade names "Elkera", "BNML" or "BNML Standard" or any other trade marks, service marks, logos or trade names belonging to Elkera (collectively *Elkera Marks*) or to any trade mark, service mark, logo or trade name belonging to any Contributor. You agree not to use any Elkera Marks in or as part of the name of products derived from the Schema or to endorse or promote products derived from the Schema, except that you may use the name "BNML" as permitted by clause 4.2.

2.5   Elkera products

Nothing in this License will impair Elkera 's right to acquire, license, develop, have others develop for it, market and/or distribute technology or

products that perform the same or similar functions as, or otherwise compete with, Derivative Works, Larger Works, technology or products that You may develop, produce, market or distribute.

3 Distribution obligations

3.1 Distribution only in accordance with this Licence

The Schema may be distributed only under the terms of this Licence. You must include a copy of this Licence with every copy of the Schema You distribute.

3.2 Conditions in grants by Contributors

You may not impose a limitation or restriction on the rights of any other individual or entity in the use or licensing of the Schema that is not set out in this Licence but you are not responsible for enforcing compliance by third parties with this Licence.

3.3 Charges by Contributors

You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of the Schema. However, You may do so only on Your own behalf, and not on behalf of another Licensor. You must make it absolutely clear that any such warranty, support, indemnity or liability obligation is offered by You alone. You hereby agree to indemnify each other Licensor for any liability incurred by them as a result of warranty, support, indemnity or liability terms You offer.

3.4 Larger works

You may create a Larger work by combining the Schema with other works not governed by this Licence and distribute the Larger work as a single product. However, You must comply with the terms of this Licence in respect of the Schema.

3.5 Required notice on Schema files

You must include a notice substantially in the form of the applicable notice in Appendix A in each file of the Schema You distribute. If it is not possible to put the notice in a particular file due to its structure, You must include the notice in the package of files where a user would be likely to see it. If You

have created a Derivative work, You may add Your name and copyright statement as a Contributor to the notice described in Appendix A.

3.6 Distribution under a different licence

You may distribute the Schema with Your Derivative work under a licence of Your choice, with different terms to this Licence, provided that You comply with clause 3.2 and all the other terms of this Licence. If you distribute the Schema under a different licence, you must make it abundantly clear that any terms which differ from this Licence are offered by You alone and not by any other Licensor.

4 Modification requirements

4.1 Classification of modifications to the BNML Standard Schema

All modifications to the *BNML Standard* Schema distributed by Elkera must be classified into one of these categories:

BNML Subset — This is a modification that can be validated against BNML Standard using an XML parser. This occurs when the modification only adds attribute value enumerations, changes default values for attributes, prescribes the data type of attributes or removes non required elements, including a BNML document type.

BNML Variant — This is a modification that cannot be validated against BNML Standard but which retains the core patterns defined in the Schema file bnml-core.rnc distributed by Elkera. These core patterns are the recursive item element, the block and text elements and the item element as a direct child of the block element. The core patterns are further explained in the *Guide to BNML Schema configuration* or similar guide distributed with the Schema by Elkera.

Other modification — This is any other modification that is not a BNML Subset or a BNML Variant.

4.2 Use of "BNML" in names of Derivative works

You must not use the prefix "BNML" in the name of a schema that is a Derivative work unless the schema is a BNML Subset or a BNML Variant.

If You create a modified version of BNML Standard, whether a BNML Subset or a BNML Variant, You must name the Schema so created in such a way that it is clearly differentiated from BNML Standard. The *Guide to*

BNML Schema configuration or similar guide distributed with the Schema by Elkera includes recommended naming conventions.

5 Changes to this Licence

Elkera may publish revised versions of this Licence from time to time. Each version is given a distinguishing number. No other person, except an assignee from Elkera under clause 9.2, has the right to modify this Licence.

A new version of the Licence will adhere to open source licensing principles and will not alter the terms under which You may use the Schema. However, You may choose to use the Schema under the terms of a revised version of this Licence.

6 No warranty

Except as expressly required by law, the Schema is provided under this licence on an "as is" basis, without warranty of any kind, either expressed or implied, including, without limitation, warranties that the Schema is free of defects, merchantable or fit for a particular purpose.

You understand that although Elkera and each Contributor grants the Licence, no assurances are provided by Elkera or any Contributor that the Schema does not infringe the patent or other intellectual property rights of any other entity. Elkera and each Contributor disclaims any liability to You for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, You hereby assume sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow You to distribute the Schema, it is Your responsibility to acquire that license before distributing the Schema.

Elkera and each Contributor represent that to its knowledge it has sufficient copyright rights in its contribution to the Schema, if any, to grant the copyright license set forth in this Licence.

7 Termination

This Licence and the rights granted by it will terminate automatically if You fail to comply with the terms of this Licence and fail to cure the breach within 30 days after becoming aware of the breach. All sublicences to the Schema which are properly granted survive termination of this Licence. Provisions which, by their nature, must remain in effect beyond termination of this Licence survive that termination.

8   Limitation of liability

To the full extent permitted by applicable law, and except for any liability arising from contrary mutual agreement referred to in clause 3.3, under no circumstances and under no legal theory, whether tort (including negligence), contract or otherwise, is a Licensor, Contributor or distributor of the Schema or a supplier of those persons liable to you for any loss or damage whatsoever, including (without limitation) loss of production or operation time, loss, damage or corruption of data or records; or loss of anticipated savings, opportunity, revenue, profit or goodwill, or other economic loss; or any special, incidental, consequential, punitive or exemplary damages arising out of or in connection with this Licence or the use of the Schema, even if the party has been informed of the possibility of such damages.

If applicable legislation implies warranties or conditions, or imposes obligations or liability on the Licensor in respect of this Licence that cannot be wholly excluded, restricted or modified, the Licensor's liability is limited, to the full extent permitted by the applicable legislation, at its option, to:

(a)   in the case of goods, any one or more of the following:

    (i)   the replacement of the goods or the supply of equivalent goods;

    (ii)   the repair of the goods;

    (iii)   the payment of the cost of replacing the goods or of acquiring equivalent goods;

    (iv)   the payment of the cost of having the goods repaired; or

(b)   in the case of services:

    (i)   the supplying of the services again; or

    (ii)   the payment of the cost of having the services supplied again.

9   Additional terms

9.1   Moral rights

Except as otherwise agreed in writing by the Licensor, if the Licensor is the author of the Schema or a part of the Schema, then to the extent permitted by applicable law, the Licensor unconditionally and irrevocably consents to all acts or omissions permitted by this Licence that would otherwise infringe any rights of the Licensor under moral rights law of integrity of authorship in respect of the Schema. This consent applies whether the relevant acts or omissions occur before or after the consent is given, and is given for the benefit of You, Your licensees and successors in title, and anyone authorised by You or any of them to commit the relevant acts or omissions.

9.2 Assignment of Elkera's rights under this Licence

Without limitation of Elkera's right to transfer its intellectual property rights in the Schema, Elkera may assign the copyright in the Schema created by it and all its rights under this Licence, including the right to change the terms of this Licence, to a standards body whose objects promote open source software licensing.

9.3 Entire agreement

This Licence represents the entire agreement between You and the Licensor with respect to the licensing of the Schema. To the full extent permitted by applicable laws, there are no understandings, agreements or representations with respect to the use of the Schema not specified in this Licence.

9.4 No waiver

No term or provision of this Licence is deemed to be waived and no breach consented to unless the waiver or consent is in writing and signed by the Licensor against whom the waiver or consent is asserted.

9.5 Severance

If a provision of this Licence is invalid or unenforceable under applicable law, the validity or enforceability of the remaining terms of this Licence is not affected and without further action by the parties to this Licence, the invalid or unenforceable provision must be re-formed to the minimum extent necessary to make it valid and enforceable.

9.6 Applicable law

This construction, validity and performance of this License is governed by the laws of New South Wales, Australia.

Appendix A   Form of notice in Schema files

See clause 3.5

Notice if the BNML Schema Public Licence is used
