

# Electronic Signatures

## E-signature legislation

presented by:

Office of the Secretary of State

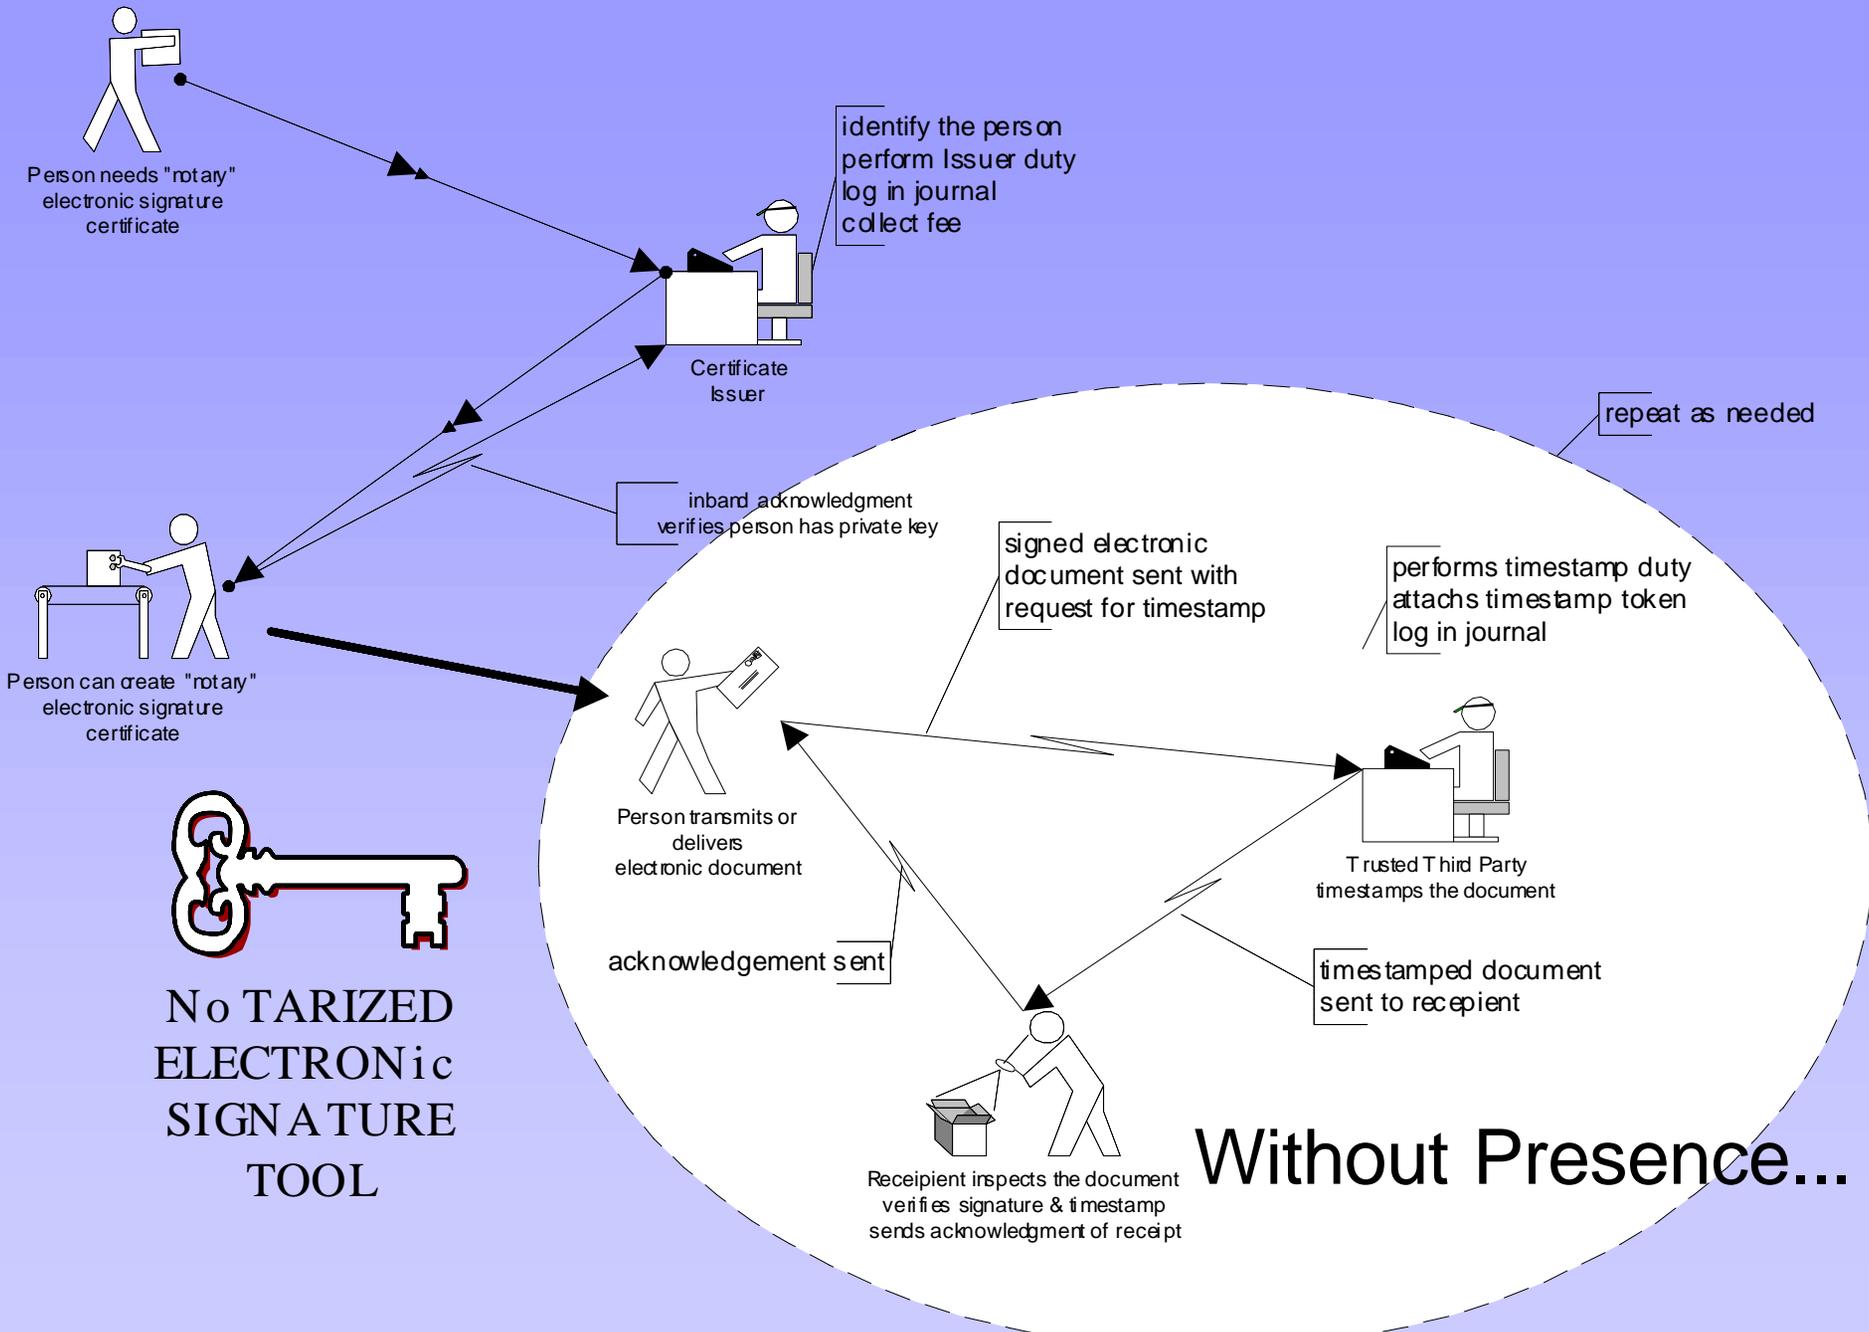

Michael Totherow, Chief Information Officer

Russ Savage, Electronic Transactions Liaison

## Example of applied Infrastructure

- E-Notary
  - Uses CP set by Policy Authority
  - Uses Digital Signature Technology
  - Uses foundation of E-Sign/UETA
    - Signature of individual could be anything
      - typed name!
  - E-Notary law agnostic, but uses existing legal structure
  - Gives state ability to specify technology as controlled by the state

# Electronic Signature "Notary" Process

# Notary Electronic Signature Process

repeat as needed

Person creates electronic document  
(has an electronic signature  
certificate)

go to e-notary for  
notarization

performs notary duty  
attaches their electronic  
signature in lieu of hand
