

TAB Activities Nov-Jan
Report to Board
Final Version

31 January, 2010

Deliverables Ready for Review

- *Conformance, Interop, and Testing policy and procedures*
- *Interoperability Guidelines*
- *Testability Guidelines*

Need a comment facility before sending out review announcement.

Work in progress

- *OASIS Standards Dependency Graph
(deadline for 31st March)*
- Citation Best Practice

Public Reviews

- SCA POJO Component
Implementation v1.1 Test Assertions
Version 1.0, November

KAVI-5 Migration

- *Little or no involvement from TAB*
- *Not clear to TAB who the players are and their roles*
- *Not clear who makes or how feature decisions are made*
- *Unstructured testing and lack of user validation of web site*
 - *“play with it and send in comments”*
 - *no comment or change control process*

Issues

- *Setup of a KAVI-5 user group*
 - *Drafting a proposal*
- *Public reviews are still slipping through the net since there are only 3 of us. Need to rethink how to do this with new TC process (only 30 day initial PR)*
