**Resolution: 2. Accept the TC Document URL Structure as defined in email 110 on the TC list.**

***(Item 7) TC F2F plans***

<http://lists.oasis-open.org/archives/sca-policy/200711/msg00022.html>

Summary for Policy TC - in favour of 1 F2F in late January - and not at the OASIS Symposium

Michael R: Like to emphasise that F2F should be an exception for OASIS work

Must have something specific for January, for example

Dave B: 2 topics in mind: Transactions proposal (imminent) / operation level policies

Ashok: We also require a host - not got that yet, so can't make a decision on the January F2F

***(Item 8) New Issues***

None discussed.

***(Item 9) Conformance Targets***

Discussion is opened and will continue via the email list.

## ***(Item 10) Open Issues***

### **Issue #18: Should qualifiable intents have a default qualifier?**

<http://www.osoa.org/jira/browse/POLICY-18>

Thinking is that the default qualifier becomes part of the intent definition rather than some PolicySet.

Michael R: Useful for binding.sca, which does not use policy sets. Also useful for bindings (etc) that have a mayProvides setting (not clear what the default is). Also imagine separate policy sets for a.x, a.y, a.z and then someone asks for just "a"

Ashok - need a more detailed proposal

**20071119-1: Michael R will attempt to build a proposal by next week**

### **AOB**
