## ***(Item 6) New Issues***

### **Issue 46: Provide a mechanism to provide configuration parameters for Policy Sets**

<http://www.osoa.org/jira/browse/POLICY-46>

Ashok presents the issue. Ashok noted that, although the proposal mentions changing both policySet and requires (intents) to child elements, he would be OK with only changing policySets.

Sanjay proposes to open the issue, seconded by Vladislav.

Issue opened unanimously.

**Resolution: 2. Issue 46 is opened.**

### **Issue 44: Distinguish interaction intents from implementation intents.**

<http://www.osoa.org/jira/browse/POLICY-44>

Mike Edwards outlines the issue.

Michael R thinks that this is a non-issue - the existing mechanisms will do

Debate about this point.

Sanjay argues this this issue should be accepted and debate details in the proposal for this issue.

Sanjay moves to open the issue, Mike E seconds

Accepted without objection

**Resolution: 3. Issue 44 is opened.**

**Issue 45: Provide a better mechanism of attaching Intents and Policy Sets to Operations and Messages**

<http://www.osoa.org/jira/browse/POLICY-45>

DUP of issues 23 and/or 27?

Mike E outlines the issue.

Ashok raises the question of a section of the spec that deals with operation level policy - how will this be handled?

Mike E notes that the proposal included with the issue will replace the section completely.

Dave B - this is a duplicate/consolidation of issues 23 & 27. How to handle this?

Michael R - bad idea to open new issue to deal with stuff already in other issues

Ashok - proposal with a significantly different structure could result from our discussions

Suggest posting the proposal in Issue 45 as a proposal for issues 23, 27

Mike E motions to close Issue 45 as rejected duplicate of 23, 27.

Michael R seconds

Accepted unanimously.

**Resolution: 4. Issue 45 is closed, rejected as a duplicate of issues 23 & 27.**
