Resolution: Resolve Issue 30 by closing with no action w/o

Issue 53: How do we tell what a policySet provides?

<http://www.osoa.org/jira/browse/POLICY-53>

Issue 53 deferred until completion of Ashok's action item

Action Item (follow up) Anish and Sanjay to write up a proposal for using External Attachment as the ONLY way to attach policies and bindings.

Contained in the email at

<http://lists.oasis-open.org/archives/sca-policy/200808/msg00012.html>

Sanjay: External policy attachment is simpler, most prevalent, and simpler
...in-line policy attachment combined with external policy attachment adds significant complexity

Propose to eliminate in-line policy attachments and support external policy attachments only

Ashok: Dale asked whether the choice would depend on whether a UI was present?

Moberg Points out that tools hide a lot of complexity

Booz: My initial reaction is that external attachments could be the primary mechanism
...We have not had much consideration on business policy, so I think we will need ipa for implementation policy

Further consideration is postponed until a future meeting
