### ***(Item 6) New issues***

#### **ISSUE-84: SOAP 1\_1 and 1\_2 intents should be mutually exclusive**

<http://www.osea.org/jira/browse/POLICY-84>

Dave B moves to open Issue 84

Mike E seconds

No objections - motion passes.

#### **Resolution: Issue 84 is Opened**

Discussion of the proposal, contained in the JIRA.

The XML here is the XML agreed by the Bindings TC

The change is the new @mutuallyExclusive="true" in the intent definition:

```
<intent name="SOAP" constrains="sca:binding" intentType="interaction"
mutuallyExclusive="true">
```

```
<description>
```

Specifies that the SOAP messaging model is used for delivering messages.

```
</description>
```

```
<qualifier name="1_1" default="true"/>
```

```
<qualifier name="1_2"/>
```

```
</intent>
```

Second change:

Line 2287: change to read:

"Standard mutually exclusive qualified intents also exist for SOAP.1\_1 and SOAP.1\_2, which specify the use of versions 1.1 or 1.2 of SOAP respectively. "

Also, Dave would like to fix a typo in the spec just below this point...

line 2290, which should be changed to:

When a SOAP intent is qualified with 1\_1 or 1\_2, then SOAP version 1.1 or SOAP version 1.2 respectively MUST be used to deliver messages. [POL100002]

#### **Resolution: Issue 84 is resolved with the proposal in the JIRA as updated by the fixes in the minutes**

### ***(Item 7) Testing Discussions***

#### **POL40005**

POL40005A

Rewritten following the action item from last week's meeting

POL40005A covers there case when there are no exceptions  
POL40005B applies when there are mutually exclusive intents present  
POL40005C applies when qualified and unqualified versions of an intent are present  
Eric discusses the updated proposal  
POL40026

EricW: I don't think we should be using "SCA Runtime" in normative statements if we can't test it directly...

EricW: We should state things in terms of the behaviour of the artifacts

EricW: However we want to check that Policies are APPLIED not just attached to an element so THAT IS an runtime function

<Discussion of Eric's points>

Next meeting we will start with POL-TA-9003
