JTC 1/SC40, OASIS request for liaison status

Dear Ms. Mance:

We wish you and SC 40 the very best of success; I am writing you in your capacity as its secretariat..

OASIS, a PAS submitter to JTC 1 and Category A liaison to several other JTC1 subcommittees, would like to request that SC 40 accept this request that OASIS be added as a Category A liaison (or other class as appropriate) to the organization, and accept one or more liaisons from OASIS technical committees to be added to the SC 40 roster.

OASIS is a member-led, international standards consortium, concentrating on structured information and global e-business standards, organized in 1993. As verified during our JTC 1 PAS recognition applications and renewals, OASIS is one of the largest and most widely recognized open standards consortia developing data and methodology specifications for e-business and public administration.

I manage liaison relationships for OASIS, and will be happy to answer any process questions you may have. We have confirmed that our "TGF" project, the Transformational Government Framework TC (see <https://www.oasis-open.org/committees/tgf>) has a strong set of complementary interests with SC 40; one of our well-qualified member experts from the TGF TC would be an excellent fit to contribute to your work.

His name is Geoff Clarke; he can be reached at <geoc@microsoft.com>.

Would you please consider asking the Subcommittee to approve our liaison request, and when appropriate, to add him and myself to the distribution roster as "L" participants:

James Bryce Clark <jamie.clark@oasis-open.org>

I have copied him in this message. Thank you very much for your assistance and consideration.

Kind regards JBC

James Bryce Clark, General Counsel
OASIS: Advancing open standards for the information society
