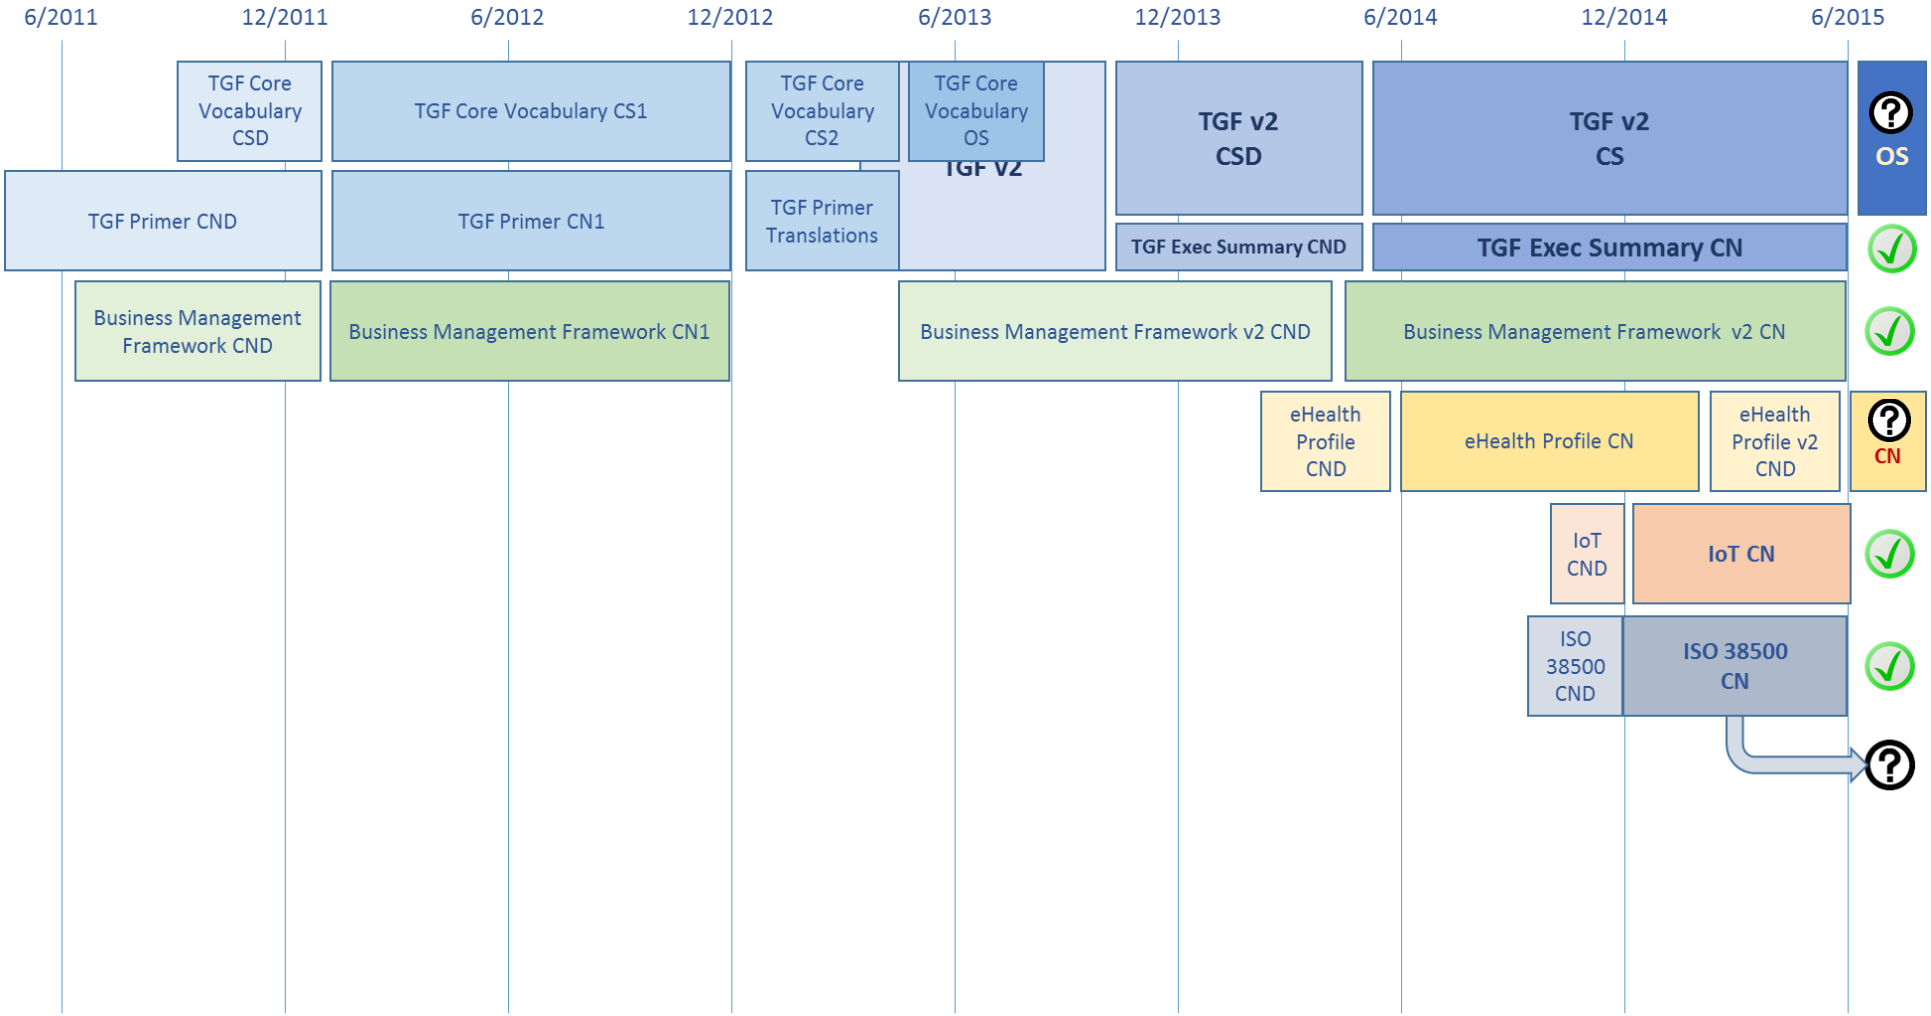
OASIS Transformation Government Framework TC – Timeline of Deliverables



Only the following advances can be made on the existing set of deliverables*:

- Advance the eHealth profile v2 CND to a CN – requires a TC vote to conduct a Special Majority Vote approval (conducted by TC Administration)
- Advance the core TGF v2 CS to an OASIS Standard – requires 3 Statements of Use; A “Candidate Standard” review period; and membership-wide ballot
- Consider some form of cooperation with ISO/IEC JTC 1/SC40 regarding the “mapping” exercise between TGF and ISO 38500 – new territory for OASIS
